

STIPONE WAGE ARGUMENT WITH DENMAN ABSENT

President of Street Car Company
to Join in Discussing Over-
time Wage Problem.

The joint wage committee of Di-
vision No. 113, Street Railway Mu-
nicipalities, of Rock Island and Moline
and 244 of Davenport, met with
John G. Huntoon, general manager
of the Tri-City Railway company,
this morning in Davenport on the
overtime wage proposition, but the
meeting was postponed.

Mr. Huntoon announced later that
J. Denman, president of the com-
pany, is out of the city and will
return before next week, and
that it is not desired to take up
the argument with the men until
his return.

The wage argument, which is
expected to lead to a strike, has
been over the alleged misinter-
pretation of the award granted by
the wage arbitration board June 28.
The arbiters allowed the men an
increase from 54, 57 and 60 cents
an hour to 60, 65 and 70 cents an
hour, and the company holds that
nothing was said about excess
wages for overtime the company is
not held liable to pay such a wage.

Non-Union Agreement.
However, John T. Bauer, presi-
dent of the Illinois division of the
union, claims that before the wage
matter went to the arbitration
board the union and the company
agreed on working conditions
and that in the agreement
was a clause providing for the pay-
ment of excess wages for over-
time. He also claims that the
company not only accepted this
clause but had inserted a clause
providing that a night worker late
in taking the run from a day man
must pay the overtime the day man
gets in. Mr. Bauer said the men
accepted this clause, which leaves
the company liable to payment of
overtime only in cases of special
runs made by men who have made
their regular runs. He declared
that on the face of things a strike
would be the only alternative in
case the company should refuse

Addressed to American delegations
appearing in behalf of kindness or
old home folks across the seas, I
caught the aspirations of national-
ity, and a perfectly natural sym-
pathy among kindred in this re-
public. But I little realized then
how we might read the concord of
American citizenship in our seek-
ing to solve old world problems.

There have come to me the ex-
pressed anxieties of American for-
eign-born, who are asking our
country's future attitude on terri-
torial awards in the adjustment of
peace. They are Americans all,
but they have a proper and nat-
ural interest in the fortunes of
kindred and native lands. One
can not blame them.
